

DC Fast Financials

Business Central

Microsoft Dynamics® 365 Business Central is the software solution for managing small businesses to help you save time and improve performance.

The Fast
Financials
Implementation
for Business

Business
Tools

Fast Financials is an 'out of the box' implementation of Business Central to help you to get up and running quickly and affordably.

Utilising the key areas of the software that a small business needs.

Business Central functionality

Implement just what you need...

Business Central is Microsoft's ERP solution for small and medium sized companies. It is designed to provide solutions for every area of business and thus is a large platform of modules that can be implemented as required. The Fast Financials solution from Dynamics Consultants implements the key areas of Business Central required to give small companies everything they need to start using a professional business package (as shown in the tables). The licence is a standard (Essentials) licence, so when your company grows we can expand your system by implementing the functionality to suit your needs.

Implementation

Standardised for speed and to reduce cost...

Dynamics Consultants looks to provide a standardised implementation, with options for inventory, data set-up and training.

-  Installation of Business Central on the appropriate platforms (SAAS or on premise)
-  Setup of the DC Fast Financials implementation of Business Central for a single company
-  Training of key users in use of the Business Central for areas covered by Fast Financials (if included in package)

**Depending on package

What is Included

The Packages

We provide a number of packages depending on your requirements.

BRONZE	SILVER	SILVER PLUS	GOLD
£2,900.00	£4,700.00	£5,675.00	£6,875.00
<ul style="list-style-type: none"> Pre-Configured Setup 	<ul style="list-style-type: none"> Pre-Configured Setup Training 	<ul style="list-style-type: none"> Pre-Configured Setup Training Data Migration 	<ul style="list-style-type: none"> Pre-Configured Setup Training Data Migration Inventory

Training

Our extremely experienced team provide regular training courses at our site in Hampshire. Get to know your system so that you can get the most out of the software as soon as possible. From the Silver package and up, you will receive introductory, finance, sale and purchase order processing training within Business Central.

Inventory

If you are selling products then the Inventory option allows you to keep control of stock and pricing. With items included in the setup, you will also receive inventory training.

Data Migration

If you are moving from another system and have a large amount of data, we provide an option for data migration, to include Static Data and Transactional Opening balances. This will utilise the Rapid Start Data Migration tools and include training and template tables for you to populate your database.

Support

We are extremely proud of our 9-5 working day support desk who offer outstanding customer service. Support is typically provided on a Pay As You Go basis, with the ability to pre-purchase support calls. If you would like to enter an on-going support contract, please contact our team to discuss this further.

	PAY AS YOU GO	SMALL BUNDLE	LARGE BUNDLE
	£130.00 per Call	£575.00 per bundle	£975.00 per bundle
1 Hour Support Call(s)	1x	5x	10x

"Business partnership for our future together"

Dynamics Consultants is a Microsoft Gold Certified Partner, specialising in enterprise resource planning (ERP), providing a wide range of solutions based around Microsoft Dynamics® 365 Business Central and associated products.

We have a combined experience of over 300 years for the product, including integration, development, training, support and upgrades.

As well as Dynamics, we specialise in a range of business software projects, including Office 365, SharePoint, eCommerce, website integration and app development.
