

DYNAMICS CENTER

Enhance your Business Central System

Microsoft Dynamics 365 Business Central is a powerful ERP system — but even the best tools can be enhanced.

That's why we created Dynamics Center: a powerful toolkit that elevates Business Central experience, helping you get the most from your system.

Improve your Business Central experience

Why Choose Dynamics Center?

Wide range of tools

Integrated into Business Central

Predictive support capabilities

Modular design, fast rollout

Get more from your system - Business Central, but better!

Dynamics Factbox

View change logs on cards with filtered click-through.

Dynamics Change Log Additions

See changes to records easier through Fact Boxes & Filtered views

Extension Dependency

Easily view how apps depend on each other.

Dynamics Mandatory Fields

On a select core set of pages, adds the ability to make fields mandatory

User Sessions

View and stop active sessions within Business Central.

Send Notes By E-mail

Email notes to multiple users directly from records in BC.

Colour Code Journals

Add coloured markers to General Journal lines.

Colour Palette

Use custom colours beyond system defaults.

Dynamics Support

Identify and fix issues proactively within Business Central.

Run Object

Run any object in the system for testing or troubleshooting.

Dynamics Support

The Dynamics Support tools contain a number of tools to check your system, detect potential issues and deal with them before they become a problem. If you do get issues, you can use the tools to directly contact our support desk.

Support Page

A Dynamics Support Activities page to navigate to various functionality.

System Check

Checks various known potential issues and allows users to fix them.

Area Info

Application Area Information shows table information on certain tables such as no. of records and entry dates.

Direct E-Mail

E-mail support directly from Business Central, either via the Dynamics Support Activities page or the Dynamics Factbox.

Part of the Dynamics App Suite

Dynamics Cues is part of the Dynamics Apps suite by Dynamics Consultants. These extensions enhance Microsoft Dynamics® 365 Business Central. Designed to streamline processes, boost productivity, and add valuable functionality, these apps integrate seamlessly into your system. With Dynamics Apps, Business Central becomes easier to use, more efficient, and better aligned with your business needs.
